Purpose

Kansas Wesleyan University is committed to accurate and timely communication with our constituents, including faculty, staff, students, parents and the community. Our website is a primary vehicle for communicating updates, changes to policy, calendars of events, and reporting on institutional progress. As such, it is our "face" to our constituents and must be current, relevant and accurate in fulfillment of our mission. Many departments are charged with updating specific pages, providing announcements and policy changes. The Marketing and Communications office (MARCOM) is responsible for overall management of the site, including training, posting of institutional news, announcements, and technical management, as well as training for departmental personnel when needed. Analytics and reports are available to help insure the timeliness, accuracy and relevancy of all content on the site.
