

KANSAS WESLEYAN UNIVERSITY

Loving God, ,Loving Neighbor

Connection

Having a faith community to connect to is so important in life. This can be especially true during your college years. At Yotes Alive Campus Ministry, we intentionally work to provide a safe space where young adults can gather and grow in their faith and friendship.

Faith Formation

Life as a young adult is a great growth and exploration. At Yotes Alive Campus Ministry, we intentionally provide young adults with experiences and opportunities to form and shape their faith through small groups, and regional and national events.

Worship

One of the first steps out into the world as a young adult is finding a place where you can attend, participate and experience worship. At Yotes Alive Campus Ministry we intentionally connect students with area congregations and offer specific worship experiences for young adults.

Leadership Development

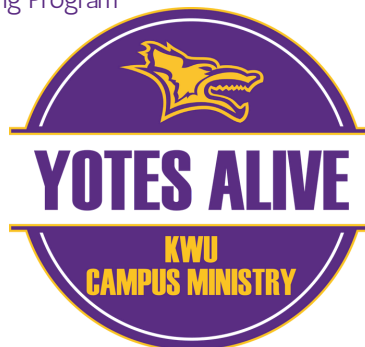

At Yotes Alive Campus Ministry, we are intentional about developing church leaders for the 21st century church. Opportunities include leading worship, serving as a small group leader, and being a Campus Ministry Intern.

Service and Outreach

Putting your faith in action as a young adult speaks to the very heart of the Christian experience. At Yotes Alive Campus Ministry, we intentionally work to connect young adults with both short-term local opportunities and outreach
